RPM Engineering Corp.
in Virginia Beach office/warehouse facility
The establishment and the success of our company could be attributed to the commitment of Quality Management System to enhance customer satisfaction. Our strengths are our ability to respond efficiently to customer needs, backed by a strong engineering team to support our ability to provide excellent service and meet delivery schedules promptly.

Our expertise in manufacturing rubber, plastic and metal component parts enables our customers to reduce their supplier base, as we could provide almost all the parts needed as well as complete assemblies. Today, our parts are used throughout the world. We serve a wide range of industries, including automotive, military, filtration, electronic, appliances and other industrial and private industry applications.

Our slogan “Quality OEM Supplier for life” does not come as a surprise. We continuously improve all our work processes through Teamwork, Speed, Integrity, Flexibility and Innovation. Our dedication to quality and reliability will enable us to continue to outperform the competition in the years to come.
